

### AMENDMENTS TO THE DRAWINGS/FIGURES

The attached drawing sheet includes changes to Fig. 10. Drawing Replacement Sheet 4/4 includes amended Fig. 10 including a screwdriver shank (operational member 6) and bottle opening member (operational member 6) in phantom consistent with claim 11, which also further represent the more than one operational member as set forth in the applicant's claim 12.

Attachments: Replacement Sheet 4/4 with changes shown in phantom.

### REMARKS

The applicant appreciates the Examiner's thorough examination of the application and requests reexamination and reconsideration of the application in view of the applicant's amendments and the following remarks.

The applicant acknowledges and appreciates the allowance of claims 1-12.

The Examiner objects to the drawings, stating that the claimed screwdriver shank and bottle opening member set forth in claim 11 and the device containing more than one operational member set forth in claim 12 must be shown or these features must be cancelled from the claims.

The applicant has amended Fig. 10 to show in phantom the two subject operational members 6, namely screwdriver shank and bottle opening member, consistent with claim 11. The screwdriver shank and bottle opening member also represent "more than one operational member" consistent with claim 12. No new matter is added.

Accordingly, the applicant requests that the Examiner withdraw the objection to the drawings.

### CONCLUSION

The Examiner's objection has been addressed. Accordingly, it is respectfully submitted that the application is in condition for allowance. Early and favorable action is respectfully requested.
